Finished Products Portfolio

NIMBUS
CHEMTECH

#	PRODUCT CATEGORY	TECHNICAL SCOPE	SYNTHESIS & COMPLIANCE STANDARD
01	Solid Oral Dosages	Coated/uncoated tablets, sustained-release formulations, and hard gelatin capsules.	Manufactured under cGMP conditions with validated dissolution profiles.
02	Liquid Orals & Syrups	Pediatric suspensions, cough preparations, and high-potency oral solutions.	Preservative-optimized formulations in pharmacopoeial amber glass & PET bottles.
03	Sterile Injectables	Lyophilized vials, liquid ampoules, and small-volume parenteral infusions.	Aseptic cleanroom filling conforming to WHO-GMP and international sterile guidelines.
04	Ophthalmic Formulations	Sterile eye drops, lubricating solutions, and antibiotic ophthalmic ointments.	Controlled particulate matter, isotonicity balance, and sterile barrier packaging.
05	Dermatologicals	Topical creams, ointments, gels, and antiseptic lotions for dermatological use.	Uniform active dispersion, stabilized emulsion matrices, and stability testing.
06	Nutraceutical Formulations	Standardized botanical combinations, vitamins, minerals, and dietary supplements.	Tested for heavy metals, micro-contaminants, and bio-available efficacy.

Notice: This tentative portfolio outlines primary therapeutic formulation lines. Complete product registration dossiers (CTD Module 3/dossier licensing) are available upon official business inquiry.
